

E-GO Smart aesthetics

44

The intelligent KLUDI E-GO kitchen fitting is a perfect symbiosis of high-tech solutions made in Germany, functional operating convenience and sophisticated aesthetics. With its intuitive sensor technology, it keeps users' hands free and the fitting sparkling and clean. That makes it the world's first hybrid fitting

for kitchen sinks, giving you the freedom to choose between contact-free and manual operation. The KLUDI E-GO battery-powered version is easy to add to existing kitchens, making it ideal for retrospective installation.

KITCHEN COMPETENCE

More hygiene, more convenience. The integrated sensor technology, means KLUDI E-GO can always stay clean and dry, even when the user's hands are dirty or wet.

DETAILS

Single lever kitchen sink mixer DN 15
422050575

The white, flexible and removable
hose spout extends the range of
motion at the sink for maximum
